### Proactive Work

Unfortunately, poaching remains prevalent in your parish and surrounding areas, and I am very keen to help prevent it.

I organised anti-poaching operations in November and December, involving over a dozen officers who patrolled key areas of interest for five hours, on each occasion. Local farmers took part, as their community has been heavily affected by a small number of persistent offenders who not only target their livestock, but also damage crops and steal machinery and fuel. Both operations were a great success, and further dates will be scheduled soon.

In previous crime figures, there is a segment titled 'Violence Against a Person'. I have been informed that this may have caused some concern and confusion a few of our Parish councils. Violence Against a Person is a broad classification encompassing various incidents. These can range from physical altercations, such as one person striking another, to verbal disputes where someone shouts, causing another person to feel unsafe. It also includes situations where body language suggests intent to harm, as well as instances where an individual perceives a potential threat—perhaps due to a mental health episode.

**Could I please ask that you distribute the Community Speed Watch (CSW) information I've provided? I'm keen to increase the number of active teams across the areas I'm responsible for, and your support in sharing this would be greatly appreciated**

Please follow the link below, which will take you to the CSW web page where you can find out how to join and lots more.
